
We would like to kindly inform you that pursuant to § 7 para. 1 of the Visiting Regulations, from May 2, 2015, groups of visitors may be guided around the Castle only by guides certified by our Museum.

Thanks to contact details provided below, such a service can be ordered directly from the guide.

During guided tours, organized groups are required to use the headphone system, which reduces the negative impact of noise and reverberation caused by the distance between the speaker and the listener, or the presence of other tourist groups in the same place. The guide receives a microphone with a transmitter, and each visitor - headphones.

Headsets are obligatory for groups of more than 10 people and are rented free of charge (with the exception of those using the PLN 1 ticket, for whom a fee of PLN 10 per person applies).

The Royal Castle can also be visited independently or with the help of audio guides.
